

Project	Music class at the Slum Campus TERA KOYA
Organization	Bridge for Lives in Mozambique (モザンビークのいのちをつなぐ会)
Contact (Tel/Mail)	Japan:+81-93-472-1444 Moz:+258-865130004 enomegu@gmail.com
Project location	Pemba, Mozambique
Project period	April ,2016 ---

Background

Our activity site of education, Pemba is high incidence of poverty in Mozambique. Biggest cause of poverty is the non-education chain. There are many children who don't go to school due to apathy for education by parents or families. Almost children don't have a dream. Youth unemployment rate is about 70%. And there is not hero who is yearning from children. In Pemba where education and consciousness level is very low, we have been given opportunities of learning to extend their curiosity, imagination , creativity. We started to construction TERA KOYA that is small private campus from 2013.

Approach / Solution

Started Music class in TERA KOTA, Pemba, Mozambique

- A: Kids basic music class
- B: Guitar class
- C: Composition class

A: kids basic music class / sing a song, Do Le Mi

B: Guitar class

C: Composition class

Impact

We already began computer class and English class , mathematics class from January 2015. But this Music classroom has great respsns from kids to Middle age. Some children who came to the classroom to produce a handmade guitar It is also increasing the needs of girls for participation

Project	Clean up project in Pemba, Mozambique
Organization	Bridge for Lives in Mozambique (モザンビークのいのちをつなぐ会)
Contact (Tel/Mail)	Japan:+81-93-472-1444 Moz:+258-865130004 enomegu@gmail.com
Project location	Pemba, Mozambique
Project period	October , 2015 to February , 2016

Background

Our activity site of clean up project, Pemba is high incidence of poverty in Mozambique. Biggest cause of poverty is the non-education chain. There are high morbidity of bacterial infections such as cholera and diarrhea, and still exist The deaths by bacterial infections. At the small alley in slum,garbage is scattered everywhere. There are no rule how to throw away and processing garbage. So residents always throw away garbage at alley. They don't know behavior for the beautification of their residence area such as dwelling and street. At first we have to give them knowledge and practice for cleaning to reduce the morbidity due to bacterial infection and keeping clean their town.

Approach / Solution

- A: ENLIGHTENMENT : Explain the need for beautification using clean up song with musicians in Pemba.
 - B: PRACTICE : Pick up and dispose garbage by youth clean up team and teach how to clean at each house.
 - C: AWARDING : Commendation the house that most beautiful to clean up
- A: Concert of Clean up project in Xmas party

B: Clean up action by youth team

C: Awarding

Impact

It was a good opportunity to notify the social contribution activities for slum area where never have been performed public sanitation activities. There are opinions from youth that they want to joint us. It is still insufficient knowledge of the harmful effects of garbage so we have to continue clean up project with more number of youth.
